

**INSTITUTE OF BIOTECHNOLOGY & GENETIC ENGINEERING
THE UNIVERSITY OF AGRICULTURE, PESHAWAR**

Recommendation Letter for Mr. Sana Ullah

TO WHOM IT MAY CONCERN

It is a great pleasure for me to write a recommendation letter for Mr. Sana Ullah, who was one of my student at the Institute of Biotechnology and Genetic Engineering, The University of Agriculture Peshawar.

I closely observed Mr. Sana Ullah and found him a talented student while, teaching him the courses of “Genetic Resources and Conservation”, “Plant Diversity” and “Plant Breeding and Genetics”. Mr. Sana Ullah has a strong aptitude towards biological research, he is a highly ambitious person with great intelligence, he has excellent communication and presentation skills. With little guidance he is able to complete wide range of tasks in due time because of his good time management skills. Mr. Sana Ullah has pleasing habits, he is a very calm and accommodating person, he happily helped his friends in their assignments and research projects. Keeping in view his academic background and his keen interest in the field of biotechnology, bioinformatics and molecular biology, I strongly recommend Mr. Sana Ullah for any work or academic position.

Please feel free to contact me if you need any further information.

Dr. Quahir Sohail
Assistant Professor
Institute of Biotechnology
& Genetic Engineering
The University of Agriculture
Peshawar.

Dr. Quahir Sohail

Associate Professor

Biochemistry and Plant Biotechnology Division,

Institute of Biotechnology and Genetic Engineering,

The University of Agriculture Peshawar
